KEY DECISIONS

- 01 One shared enforcement gate (evaluateDecision) across dispatch, closeout & billing
- 02 Money modelled as BigInt integer cents (ex-GST)
- 03 Event-driven workers with dead-letter queues

AUTOMATED TESTS

Stops an estimated \$5k a week of margin leakage by blocking unbillable or non-compliant work before it ships — backed by 30,000+ tests across 2,200+ test files, all funnelling through one audited decision gate.
