03 — OVERVIEW

Quotes & Projects Tool for A-SAFE

Own the full sales lifecycle and project invoicing across A-SAFE's tool ecosystem — CRM, Drawing Tool and Route 66 — with quote-to-cash handled end to end.

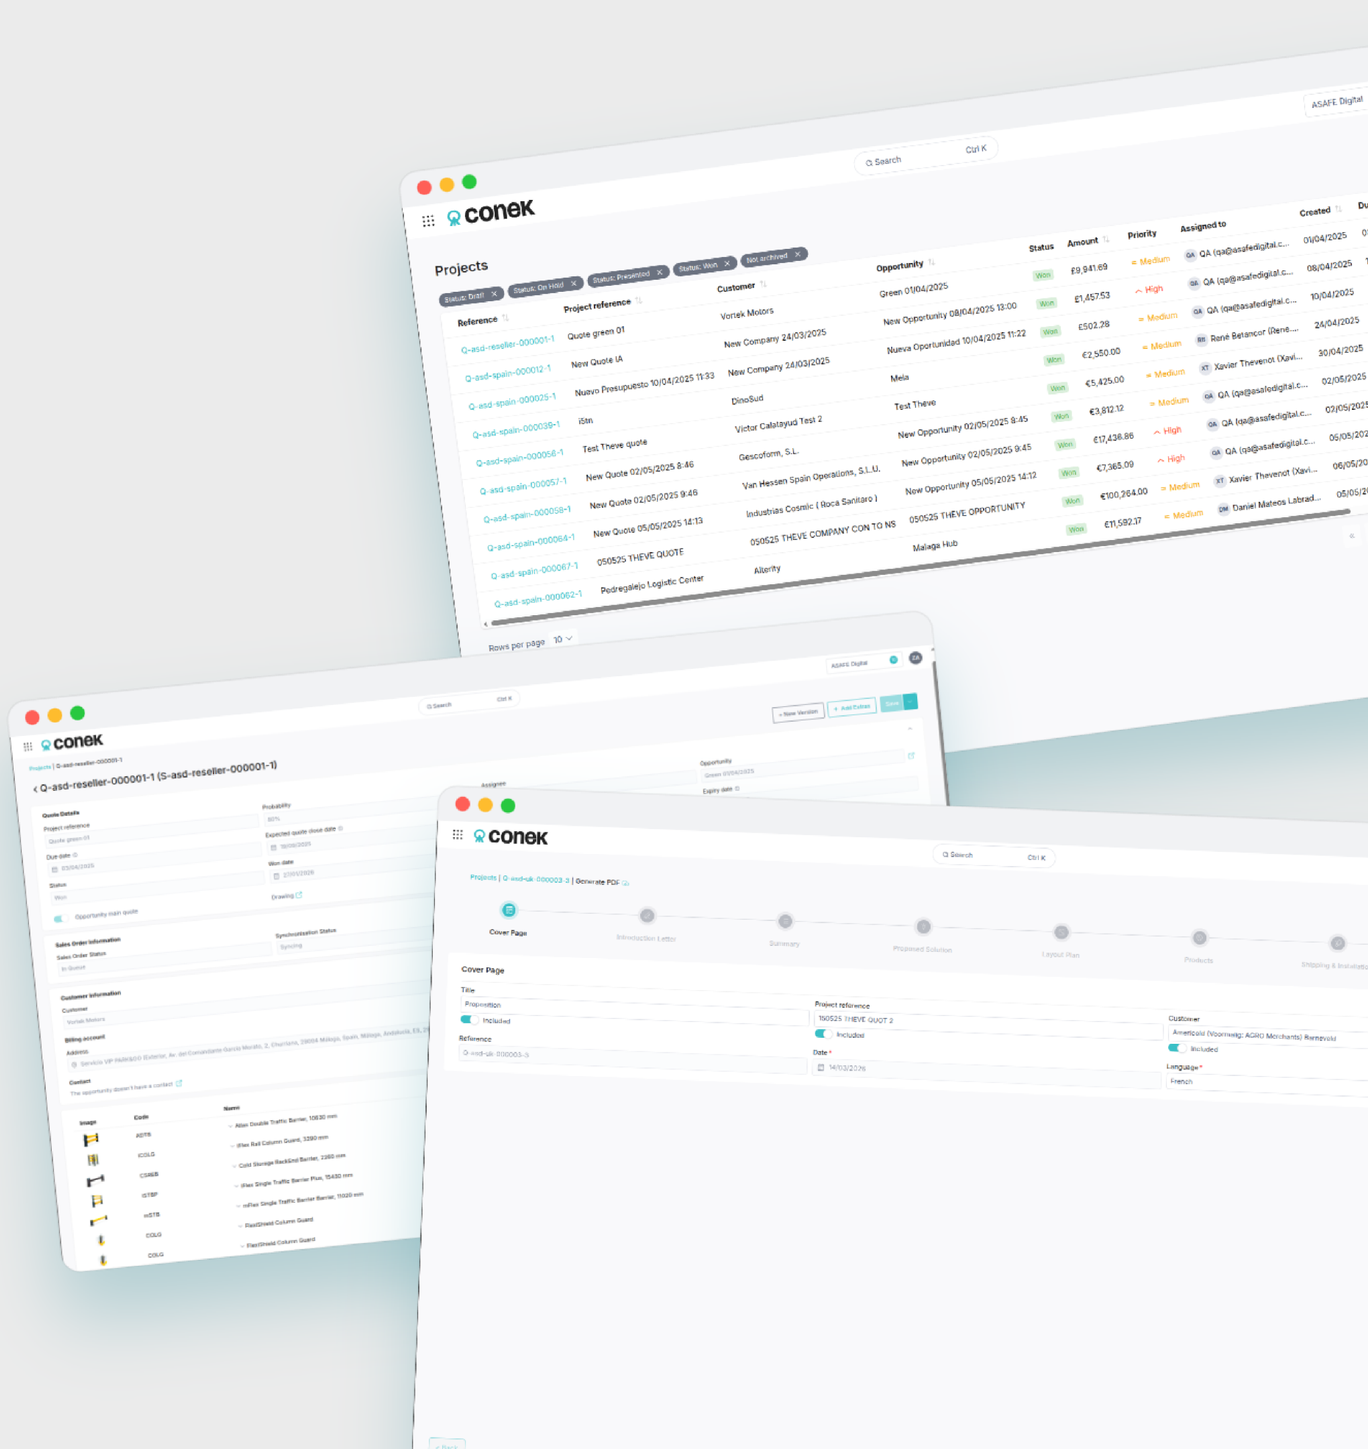

ROLE **Full-stack engineer**

<100ms
INTER-SERVICE LATENCY

500+
AUTOMATED TESTS

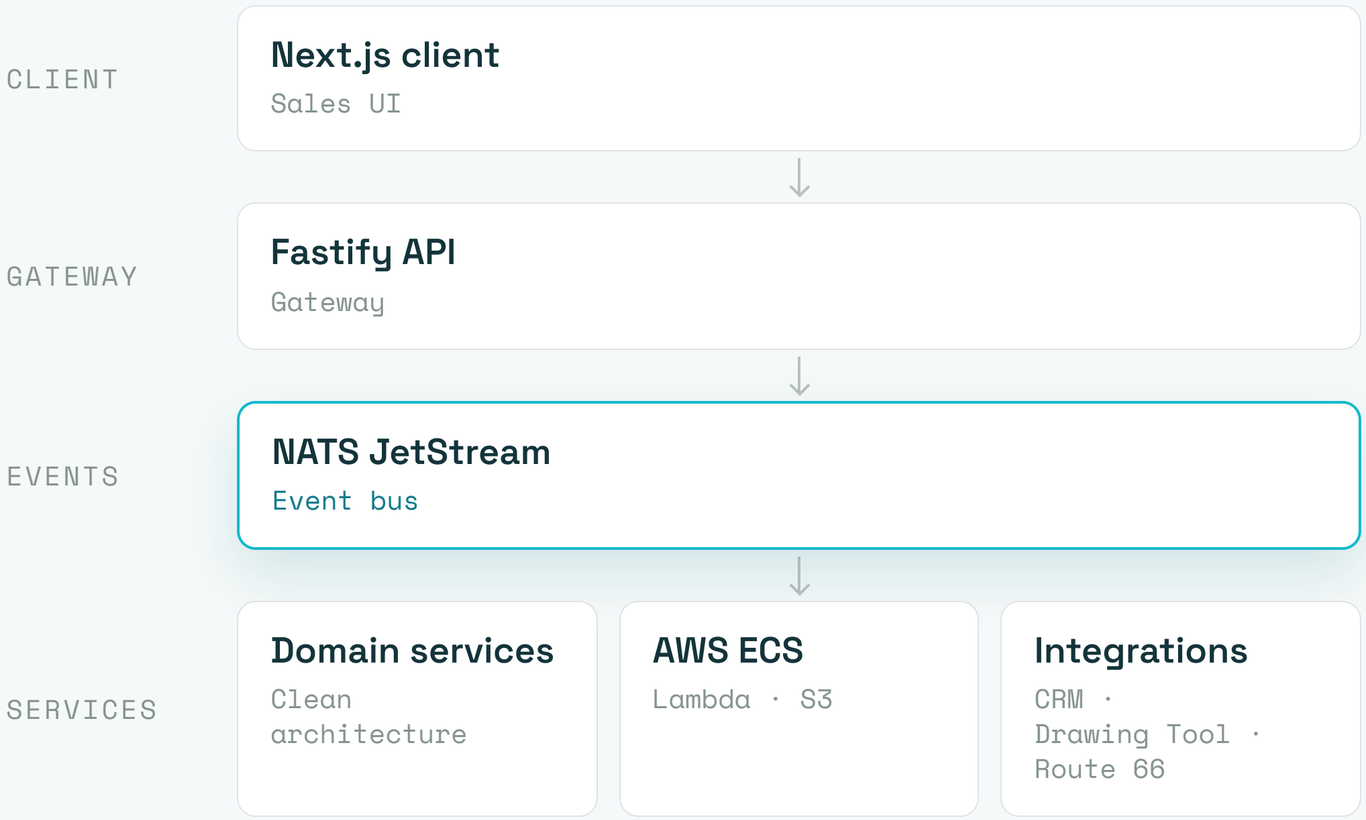

95%
TEST COVERAGE

- Sales lifecycle — quote through to sales order
- Order items, project invoicing & quote-PDF generation
- Analytics & integrations — CRM, Drawing Tool, Route 66

03 — ARCHITECTURE & STACK

Event-driven services, type-safe contracts

KEY DECISIONS

01 Event-driven service boundaries over NATS JetStream

02 Strict type-safe contracts between services

03 Clean-architecture layering for testable domains

STACK

FRONTEND Next.js

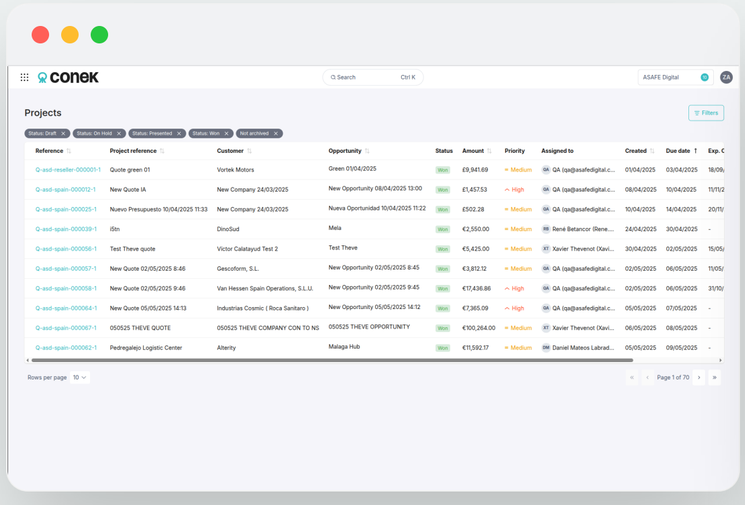

BACKEND Node.js Fastify TypeScript

EVENTING NATS JetStream

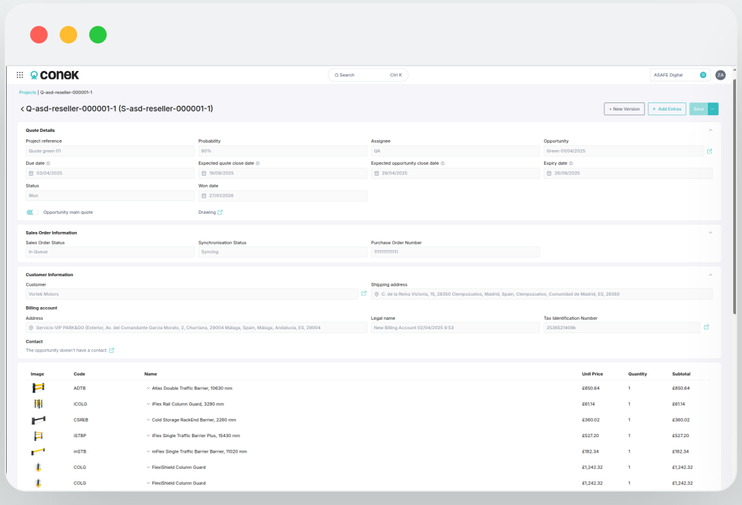

CLOUD AWS ECS Lambda S3

03 — WALKTHROUGH

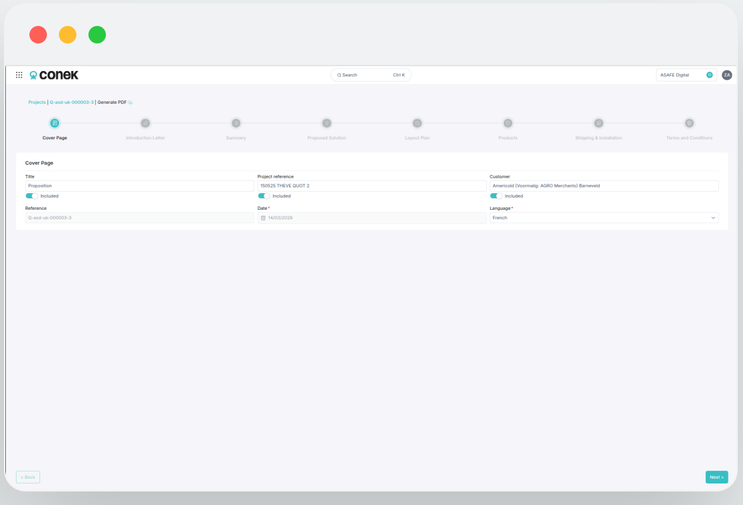

Quote to cash

Projects & quote pipeline

Quote detail & line items

Quote-PDF builder

HOW A QUOTE BECOMES CASH

01

Quote

Order items, pricing and a generated quote PDF

02

Sales order

Won quotes carried through to the sales order

03

Invoice

Project invoicing, handled end to end

04

Integrations

Wired into the CRM, Drawing Tool and Route 66

03 — IMPACT

Fast, tested, dependable

<100ms

INTER-SERVICE LATENCY

500+

TESTS · 95% COVERAGE

0

CRITICAL PROD REGRESSIONS

An event-driven architecture over NATS JetStream kept services fast and decoupled, with quote-to-cash flowing reliably across the A-SAFE tool ecosystem.

WHAT SHIPPED

- Quote to sales order to invoice, end to end
- Order items, project invoicing & quote-PDF generation
- Wired into A-SAFE's CRM, Drawing Tool and Route 66
